That would be great! Here is the confirmation from Loraine and list of invitees from the State. You can create a subject, or call it "CA UIC plan discussion." Thanks. David

9:30 or 10:00 in SF on the 20th appears to work for all DOC/DOGGR attendees, so you can go ahead and send the meeting invite to:

mark.nechodom@conservation.ca.gov

steven.bohlen@conservation.ca.gov

bruce.reeves@conservation.ca.gov

Also, reading through this e-mail thread, I didn't see any mention of what the subject or purpose of this meeting will be, and I'm wondering if it would be possible for you to include that in the meeting invite.

I can send out a group invite if that would be helpful. Just let me know when they confirm start time.

Sorry, yes. She cannot do the 27th. I sent a message to the State folks indicating we can do the 20th here in SF, starting at 9:30 or 10am.

Did you mean she can't do 27th?

Sylvia emailed me that she cannot do the 20th, so I will reach out to the State and try to lock up the 20th at 10am here.

Let's try for Feb. 20 if at all possible, since we'll need the time immediately afterwards to formulate a response to the plan in early March, perhaps with additional input needed from the State. For me, the earlier the better on Feb. 20 since I need to be at a lunchtime meeting near Civic Center with interagency partners re Bay sediments. If Feb. 20 is impossible for folks, I don't know if I can be here in person on Feb. 27, but would figure out a way to call in if I can't be here.

We're still trying to pin down a date to meet with the State to go over their plan. What they have available is Feb 20th (10 or 10:30am start) and Feb 27th (2pm start). From the looks of calendars, neither of these is ideal, but I wanted to check in to see if we can make the Feb 20th slot work. We would ask them to come here. Let me know. Thanks. David
